

TAJINDER SINGH

Senior Software Engineer

Chandigarh, India | +91 70097 05039 | tajinder.developer@gmail.com | [LinkedIn](#) | [GitHub](#)

SUMMARY

Senior Software Engineer with 7+ years of experience architecting resilient web applications, scaling monolithic backend systems, and modernizing legacy infrastructure. Proven ability to scale engineering teams, design HIPAA-compliant architectures, and drive cross-functional delivery across global teams (US, UK).

SKILLS

Backend: Node.js, Python (Django, FastAPI), Laravel, PHP, REST, GraphQL

Frontend: React.js, TypeScript, JavaScript (ES6+), Tailwind CSS

Cloud & Data: AWS (EC2, S3), Docker, CI/CD, MySQL, PostgreSQL, MongoDB, Redis, Elasticsearch

AI & Automation: Generative AI, Model Context Protocol (MCP), LLM Integrations, Agentic Workflows

Architecture: System Design, Scalable Monoliths, API Design, Webhooks, Event-Driven Processing

EXPERIENCE

IDS Infotech — Senior Software Engineer

Sep 2023 – Present

- Architected and deployed a HIPAA-compliant medical contract management system (HMO IDS-Argus) using a scalable 3-tier architecture, securely managing 50,000+ medical contracts.
- Engineered secure MVC backend pipelines and optimized relational database queries, establishing automated QA processes that ensure 99.9% production reliability.
- Led custom API integrations (Peleman) for Google Drive, Facebook, and Instagram, processing heavy media payloads via React and Uppy.
- Optimized file-handling workflows utilizing **Redis caching**, reducing overall processing latency and improving application performance by 40%.
- Spearheaded AI adaptation initiatives by developing custom Generative AI automations and Model Context Protocol (MCP) tools, multiplying developer productivity and accelerating engineering workflows.

QSS Technosoft — Senior Software Engineer

Feb 2023 – Aug 2023

- Owned end-to-end technical delivery of a live betting customer management platform, processing ~1,000 requests/minute (event updates, cancellations, billing) during peak traffic.
- Integrated Stripe payment gateways for recurring revenue processing and implemented Discord APIs for automated, state-driven user access control.
- Orchestrated cloud server deployments using robust background jobs and message queues for asynchronous task processing, maintaining 99.5% uptime during traffic spikes.
- Designed a responsive analytics dashboard to track real-time user management statistics and system health.

Collabera Digital — Skill Upgrade Program

Oct 2022 – Feb 2023

- Participated in a skill upgrade program focused on modern web development practices, e-commerce architectures, and integrating custom modules into live client environments.

Own Infotech Pvt. Ltd. — Senior Web Developer

Oct 2020 – Sep 2022

- Managed technical delivery for international clients and contributed to web application development in a fast-paced startup environment.

Kbizsoft Solutions Pvt. Ltd. — Junior Web Developer

Aug 2019 – Sep 2020

- Developed and deployed full-lifecycle web applications utilizing PHP, JavaScript, and MySQL, strictly adhering to industry coding standards.

EDUCATION

B.Voc in Software Development

2016 – 2019

S.G.T.B. Khalsa College, Punjab
